

## Calrossy After School Assistance Program William Cowper Campus 2017

Teachers are making themselves available in this way to encourage all students to take greater responsibility for their own learning. These sessions are not generally lessons but one-on-one assistance. Students wishing to attend these help sessions will need to either bring assignments or homework with which they require further explanation or come with a particular aspect of a course which they have found difficult and which they wish to understand more deeply. These sessions are a great opportunity for students to increase the levels of success they experience and to further their joy of learning. Please take hold of these opportunities which are not available at many schools.

**Please note that if there are no students wishing assistance within a short time (10 minutes) of the session commencement, the teacher is likely to leave. If you require assistance, please arrive close to the starting time.**

Day	Subject(s)	Times	Location	Teacher(s)
